Submitting a Grade Change Request
Grading Coordinators

The purpose of this guide is to provide designated grading coordinators instructions for initiating a grade change request utilizing Ellucian Workflow.

1. Click on **Change of Grade Request for Grading Coordinators** found on the **Forms** page then log in using your Mason credentials.

2. Begin typing the instructor’s name. The dropdown list will display name and netid. Once the correct instructor is displayed, click **Next**.

3. Select the term for the course you wish to submit the change of grade.

4. Select the **section** for which you will be submitting the grade change request. Please note if an instructor has taught more than one course in the term selected, all CRNs/Courses will be shown in the drop-down list. Click **Next**.
5. Select the student that requires a grade change by finding the student’s name in the dropdown list or by entering the student’s G#. Once the correct student is selected, click **Next**.

6. **NOTE:** If the Current Grade Assigned is blank, **STOP** and do **not** submit the form. There is no grade to change in the system.

7. Select a **new grade** and **change reason**. Enter a **grade change explanation**. Click **Next**.
   **NOTE:** The explanation is required to provide context to approvers. For temporary to final grade changes, a comment such as “Temp to final” is sufficient.
8. A page confirming the request has been submitted will display. A notification will be sent to the next approver in the workflow for review. All approvers associated with the workflow will be listed on this page. **Note:** If the request is a change from temporary to final grade change, no additional approvers are necessary.

9. Once approved by all users in the workflow, the record will be updated in Banner and on the student’s academic record. Regardless of the decision, the submitter and the student will receive an email notification at the conclusion of the workflow, and a record of the request will be uploaded for view in WebXtender.

10. All workflow participants can view a summary of activities in **Ellucian Workflow**. Click on **My Cases.** Cases can be viewed by clicking the **In Progress** tile. The **Pending Tasks** column shows the current step in the approval process.
11. Generate a report of cases by clicking **Report User**. Select **View Report** for **RR Grade Change**.

12. Choose the preferred file type. The report will be sent to your Mason email address.
